Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Louis Paul on November 25, 2008.

Claims 1-10, 22-26, 33, and 34 are cancelled.

Detailed Action

This office action is a response to applicant's communication submitted August 8, 2008 wherein rejections of record in the previous office action are traversed. This application was filed July 28, 2003 and makes no priority claims.

Claims 11-21, 27-32, and 35-38 are pending in this application.

Claims 11-21, 27-32, and 35-58 as amended are examined on the merits herein.

Reasons for Allowance

The declaration of Leslie Baumann, submitted August 8, 2008 under 37 CFR 1.131 has been fully considered and entered into the record. The declaration is seen to be persuasive to establish a date of conception of at least June 20, 2002, when the invention disclosure discussed in the declaration. Furthermore other documents such as the draft of the pilot study revised March 8, 2002 and November 2002, show diligence in reducing the invention to practice. Therefore the declaration is seen to be persuasive to remove the rejection of claims 11-17, 19-21, 27-29, and 31 under 35 USC 102(e) for being anticipated by Miller et al., because the claimed invention is seen to antedate the effective filing date of Miller et al. Therefore the rejection is withdrawn.

The above examiner's amendment cancelling claims 33 and 34 is seen to be persuasive to remove the rejection of said claims under 35 USC 112, first paragraph for lacking enablement as the claims are no longer pending. Therefore the rejection is withdrawn.

Claims 11-21, 27-32, and 35-38 are pending in this application and are examined on the merits herein.

The amendment and arguments submitted August 14, 2008 as discussed above are seen to be persuasive to remove all rejections of record in the previous office action and to place the application in condition for allowance. Reasons for allowance are as follows:

The claimed subject matter is seen to be adequately described and enabled by the specification as originally filed. For example, the summary on pp. 3-4 of the specification as originally filed demonstrates that Applicant was in possession of the claimed methods of treating fine lines and wrinkles at the time of filing. The examples of therapeutic protocols provided on pp. 11-12 serve to enable one skilled in the art to make and use the claimed methods. Therefore the claimed invention meets the requirements of 35 USC 112.

Furthermore the claimed invention is seen to be novel and non-obvious over the prior art. Although imiquimod is known in the prior art as a topical treatment for warts, it is not known in the prior art to administer it to an area of skin not suffering from warts, cancer, or precancerous growth. Furthermore, one of ordinary skill in the art would not have considered it obvious to administer it to a patient suffering only from fine lines or wrinkles, as these are very different conditions from warts or skin cancer. Still further, the reference Miller et al. (of record in previous action) has been cited as prior art against this application under 35 USC 102(e) as it teaches the same invention, namely

Art Unit: 1623

a method comprising administering imiquimod to an area of skin demonstrating fine lines or wrinkles. However, the declaration of Leslie Baumann under 37 CFR 1.131 demonstrates a date of conception prior to the effective filing date of March 13, 2003 of Miller et al. Therefore the instant application is seen to antedate Miller et al. For these reasons the claimed invention meets the requirements of 35 USC 102 and 103.

Accordingly, The declaration of Leslie Baumann presented August 8, 2008, and the accompanying examiner's amendment, are sufficient to remove all rejections made in the prior office action as discussed above and to place the application in condition for allowance.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled, "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric S. Olson whose telephone number is 571-272-9051. The examiner can normally be reached on Monday-Friday, 8:30-5:00.
